

## **Hospital Care & Performance Improvement Committee Goals**

Active support for all facilities seeking specialty designation (to include but limited to stroke, STEMI, trauma, perinatal).

100% utilization of the CTRAC regional registries by all applicable facilities.

Enhancement and improvement of patient care through the region through analysis of STEMI, stroke and trauma data.

Continued support of education for regional specialty coordinators, physicians, nurses and EMS providers in our trauma service area.

Ensure appropriate trauma and acute care transport through enhanced communications, education and monitoring related PI
